

Visualising the Invisible

You come to an island, you have wishes, very hidden. You hope they become true. We would like to meet you, to know your wishes and to help you to fulfill your dreams.

Each workshop we offer is a performance at the same time, there is no strict separation between the participants of the workshop and the audience.

Workshop 1 – Collecting wishes

What do people expect, wish, dream, fear regarding their trip to the island? We work with a questionnaire and interviews to hear about that...

Workshop 2 – Living pictures

In this workshop we build up living pictures which show how the wishes of people can become true... Those scenes may be based on real experiences but may also be fictional.

Workshop 3 – The stories behind the pictures

Inspired by the photographs of workshop 2 another group writes short stories in a collective way. The audience can read the stories at the same moment they are written.

Workshop 4 – Design an overall

We design overalls with the wishes and sentences of the written stories. They are used in the big event at the end.

Workshop 5 – The performance

In this workshop we prepare the performance for the last day.

The artists

Edith Draxl, theatremaker, dramaturge

Andrea Fischer, costume designer

Julia Laggner, videoartist, visual artist

Wolfgang Rappel, photographer

Sandra Schüddekopf, theatremaker

Counseling: *Andrea Markart*, visual artist
